Danilo Pace

Trainee Software Engineer, London (UK)

Profile

For over 6 years, I have been developing my technical skills across software development, IT support, and customer-facing roles. Combining strong problem-solving abilities with a user-focused mindset, I have experience delivering practical solutions, resolving complex technical issues, and collaborating effectively in fast-paced environments. I thrive on turning challenges into efficient solutions through analytical thinking, adaptability, and a continuous drive to learn and improve.

Technical Skills

Languages: Python, JavaScript, C++, C, C#, PHP, Swift, PowerShell

Frontend: HTML, CSS, React

Tools & Technologies: Git, GitHub, GitLab, Unity, Unreal Engine, Xcode

Additional: Technical Troubleshooting, Testing & Debugging, Technical Documentation, Windows & macOS Support

Spoken Languages: English (fluent), Italian (native)

Professional Experience

IT Support Technician | Construction Company (Remote)
Mar 2023 – Jul 2025

• Delivered technical support across Windows and macOS environments, resolving software, hardware, and connectivity issues.
• Improved support response times by documenting common issues and solutions in the knowledge base.
• Reduced user downtime by proactively identifying and resolving recurring technical issues.
• Managed user accounts and access permissions across multiple platforms.
• Configured workstations, maintained access controls, and documented issues to support faster resolutions.

Software Developer | University Projects
Sept 2020 – Jul 2023

• Developed software projects using Unity and Unreal Engine throughout the full development lifecycle.
• Improved gameplay performance by optimising AI systems and player interactions.
• Enhanced team collaboration using GitHub and GitLab for version control and code management.
• Resolved software issues to ensure projects were delivered on time and met requirements.

Education

BSc (Hons) Computer Games Programming: *Kingston University, London, 2023*
